MEMORANDUM FOR THE ATTORNEY GENERAL

RE: COMMUNIST INFLUENCE IN
RACIAL MATTERS

My memorandum of April 28, 1966, pointed out that a technical surveillance on the headquarters of the Southern Christian Leadership Conference, 330 Auburn Avenue, Northeast, Atlanta, Georgia, provided valuable intelligence information.

In accordance with your notation on the above memorandum, this technical surveillance was discontinued on June 21, 1966.

Very truly yours,

John Edgar Hoover
BY ea Director

MJR:sss (9)

NOTE: This memorandum is classified "Secret" since it concerns a technical surveillance, the unauthorized disclosure of which could result in serious damage to the Bureau's security coverage to the detriment of national security.

This technical surveillance was installed on 11/8/63. Memorandum of 10/27/65 justifying the continuation of the installation was returned by the Attorney General indicating approval. Memorandum dated 4/28/66, recommending continuance of this technical surveillance was returned with a notation by the Attorney General dated 6/20/66, "I think this coverage should be discontinued, particularly in light of possible charges of a criminal nature against Hosea Williams and possibly others."

Memorandum for the Attorney General

NOTE CONTINUED:

Inspector J.A. Sizoo contacted SAC Atlanta on 6/21/66, instructing that this technical surveillance coverage be discontinued immediately. It was discontinued at 1:00 p.m., 6/21/66.

The Attorney General's notation concerning Hosea Williams refers to an Interstate Transportation of Stolen Motor Vehicles case under investigation by the Bureau wherein the principal subject Harold Belton Andrews alleges he stole four automobiles for subsequent sale to the Southern Christian Leadership Conference headed by Dr. Martin Luther King, Jr. It was developed by investigation one of these stolen vehicles had been in the possession of Hosea Williams who is the Director of Voter Registration for King's organization. Due to the ramifications involving the Southern Christian Leadership Conference and the civil rights movement, the Criminal Division of the Department has been directing the prosecution in this case rather than the U.S. Attorney. Following presentation of the case to a Federal Grand Jury by Departmental attorneys Andrews and one other person were indicted, however, Hosea Williams was not indicted.

ONE

TO : DIRECTOR, FBI (100-442529)

DATE: 4/11/66

FROM : SAC, ATLANTA (100-6670-E)

SUBJECT: CIRM

Re Bureau letters 2/25/66 and 2/28/66, authorizing surveys on residence of Dr. MARTIN LUTHER KING, JR., 234 Sunset Avenue, N. W., Atlanta, Georgia, and the Southern Christian Leadership Conference offices. Further reference is made to Atlanta airtel dated 3/31/66 regarding these matters.

Information has been developed that the residence of KING has two working phones which are not now being covered. It is noted that Tesur was previously utilized on KING at 563 Johnson Avenue, N. E., Atlanta, Georgia; however, in April, 1965 he moved to new address at 234 Sunset Avenue. Survey was conducted at this time for continuation of Tesur and favorably recommended to Bureau. This recommendation was declined by the Bureau. No coverage has been in effect since that date on residence. It is again recommended that Tesur be made providing complete coverage of residence.

At time of recommending survey for SCLC offices it was noted that certain changes had occurred in the physical layout of the facilities of SCLC. As the Bureau is aware Tesurs have already been authorized and functioning on 5 trunk lines; a WATS line and an unlisted private line. Current survey reflects that the WATS service has been discontinued. It is also noted that another unlisted private line has been installed and that four additional trunk lines are now in use at SCLC.

It is recommended that Tesurs be authorized for these additional four trunk lines and the additional private unlisted line which are all located within SCLC offices. It is further recommended that Tesurs be authorized for full coverage on the residence of KING which involves two lines. Above 7 Tesurs recommended for installation with full security assured.

As the Bureau is aware, several highly confidential sources have furnished extremely valuable information concerning captioned matter in regard to the Southern Christian Leadership Conference (SCLC), 334 Auburn Avenue, N. E., Atlanta.

REC-6

ReATlet 2/18/66 requesting authority to conduct survey for technical surveillance at residence of Martin Luther King, Jr., President, Southern Christian Leadership Conference, 234 Sunset Avenue, N.W., Atlanta, Georgia.

Provided full security is assured, authority is granted to conduct requested survey. Promptly advise the Bureau of the result of this survey, together with your recommendation as to the feasibility of installation.

NOTE:

Relet pointed out that a review of information furnished by AT 1379-S* a discontinued technical surveillance on King's former residence, during the 90-day period prior to discontinuance revealed 13 contacts with King by individuals having Communist Party connections and 11 contacts by King of females relating to extramarital activity on his part. AT 1379-S* was discontinued 4/30/65 when King moved. Atlanta notes that information being received from other sources indicates that contacts are made with or initiated by King from his residence which are pertinent to our CIRM investigation or which have counterintelligence potential. Atlanta assures that requested survey will be conducted with full security. Authority granted in view of validity of observations made by Atlanta and the necessity to insure we are not leaving any loop holes in our investigation of communist attempts to influence racial activities.

SUBJECT: COMINFIL OF SOUTHERN CHRISTIAN
LEADERSHIP CONFERENCE
INTERNAL SECURITY - C

On 11/8/63, a technical surveillance was instituted on the headquarters of the Southern Christian Leadership Conference, 330 Auburn Avenue, N.E., Atlanta, Georgia, a civil rights organization headed by Martin Luther King, Jr. Its purpose was to determine communist influence on the Southern Christian Leadership Conference and King. It encompasses a switchboard of this organization covering seven lines, AT 1380-S* through AT 1386-S*. The monthly cost of this installation is approximately \$3,469.67, which includes rental of a private apartment for monitoring purposes and for the leased line which is utilized. Private monitoring site used for security reasons.

This installation consistently furnishes examples of communist influence or attempted communist influence on King and on the Southern Christian Leadership Conference, which is not available through any other source. This information is widely disseminated to other Government agencies and frequently to the White House. A few examples of information furnished to the White House are as follows:

January, 1966 King issued instructions for the Southern Christian Leadership Conference to involve itself "as much as we can become involved" in the issue concerning the Georgia House of Representatives' refusal to seat Representative-elect Julian Bond because of Bond's endorsement of statements against United States Vietnam policy

During a conversation, King indicated he planned to see Vice President Humphrey concerning funds for domestic programs and desired to see the President at a propitious time concerning peace issues.

Re: COMINFIL OF SOUTHERN CHRISTIAN
-- LEADERSHIP CONFERENCE
100-438794

December, 1965	At the behest of a representative of the American Committee on Africa, an organization interested in African political affairs, King ordered a telegram be sent to the President over his signature advocating an embargo be placed on shipments of oil to Rhodesia.
August, 1965	During a conversation with one of his associates, King discussed some of his plans in connection with his scheduled conference on 8/31/65 with United States Ambassador to the United Nations Arthur J. Goldberg.
July, 1965	During another conversation, there were references to statements made by King in private concerning a conference he had with the President the preceding week.

OBSERVATIONS:

King is the foremost civil rights figure in the country and has an international following. A number of his key advisors as well as some officers in the Southern Christian Leadership Conference have been Communist Party members or affiliated with other subversive organizations. This surveillance indicates the extent of influence being exerted on King by these individuals. It reveals the part these individuals play in policy-making decisions with King; assistance which they render King in his writings and speeches; and the advice and counsel they give King in his declarations concerning United States foreign policy.

RECOMMENDATION:

In order that the Bureau may carry out its responsibilities on uncovering and disseminating all information indicating communist influence in racial matters, including the increasing tendency to merge peace issues with civil rights, it is mandatory that we maintain coverage of King. Thus, it is recommended this technical surveillance be retained.

Special Agent in Charge [Roney] New York Office, called this morning (11/29/65) and advised that Martin Luther King, Jr., and some of his associates have a reservation at the Americana Hotel in New York City, arrival about 2 p.m., today (11/29/65). King will probably stay only one night as he is to be in Washington, D. C., 11/30/65. King and his party will have Rooms 3609 - 3611. The New York Office has available Room 3509 from which it advises it can maintain a microphone surveillance on King, with full security assured and without the use of any wiring.

We have had prior information that King will meet with some of his advisors with communist backgrounds, such as Stanley Levison and Harry Wachtel. These conferences with his advisors have shown the communist influence upon King relative to the racial situation as well as the Vietnam situation.

The New York Office requested authority to make the microphone surveillance installation immediately with full security assured and also requested authority for expenditure of up to \$35 per day for the monitoring room.

ACTION:

On New York's assurance that full security was available and since time was of the essence, New York was told to go ahead with the installation as planned and was also authorized the necessary expenditure for the monitoring room. Inasmuch as the installation will be made today (11/29/65) and deactivated immediately upon King's departure, probably 11/30/65, we will promptly submit a memorandum to the Attorney General advising when the installation was made and when it was taken off.

This Bureau's investigation of the communist influence in racial matters has developed considerable information indicating the influence upon Martin Luther King, Jr., head of the Southern Christian Leadership Conference, by individuals with subversive backgrounds such as Stanley David Levison, Harry Wachtel, Bayard Rustin and others. From time to time, King meets with these individuals and coverage of these meetings by this Bureau results in the obtaining of evidence of the influences upon King as well as information concerning the tactics and plans of King and his organization in the civil rights movement. The coverage of these meetings also has developed information concerning King's involvement in the Vietnam situation. These meetings frequently take place in hotel rooms in New York City.

On November 29, 1965, information was obtained that King was to spend the night of November 29, 1965, at the Americana Hotel, 52nd Street and 7th Avenue, New York City. We also had information that King planned to meet with his advisors while in New York City, November 29-30, 1965. Because of the importance of the meeting and the urgency of the situation, a microphone surveillance was effected November 29, 1965, on King in Rooms 3609-3611, Americana Hotel, New York City. This surveillance involved trespass and was discontinued on November 30, 1965.

SUBJECT: MARTIN LUTHER KING, JR.
SECURITY MATTER - COMMUNIST

J U N E

The New York Office called me this afternoon (10/14/65) and advised that Martin Luther King, Jr., has a reservation for tonight at the Astor Hotel in New York City. He is to be in Room 445. The New York Office has available Room 435 from which it advises it can maintain, with full security assured, a microphone surveillance on King.

King has recently been conferring with his advisors with communist backgrounds, such as Stanley David Levison and Harry Wachtel, on his visits to New York City. We have specific information that he plans to see Wachtel on this visit. His conferences with these advisors have shown the communist influence upon King relative to racial matters as well as the Vietnam situation.

The New York Office requested authority to make the microphone installation immediately with full security assured.

ACTION:

On New York's assurance that full security was available and since time was of essence, I told New York to go ahead with the installation as planned. I also authorized the necessary expenditure for the room for monitoring purposes. Memo to A.G. being prepared.

Reurairtel 8/5/65 which advised of the discontinuance of technical surveillances (tesurs) designated AT 1388-S* and AT 1389-S* which were on the headquarters of captioned organization. This was as result of Bureau instructions.

Reurlet 8/10/65, instant caption as well as concerning CIRM, which proposed the reinstallation of AT 1388-S* and AT 1389-S*. In order to accommodate the reactivation of these two sources, your office proposed the discontinuance of AT 1383-S* and AT 1384-S*. The latter two tesurs are part of a series of several covering the headquarters of the Southern Christian Leadership Conference (SCLC).

For your information, it was necessary to instruct that you discontinue coverage at SNCC because of the over-all needs of the Bureau. For purposes of Bureau tally-keeping the two sources at SNCC were considered as a single tesur and the several sources at the SCLC are considered as a single tesur. Therefore, your proposal, if adopted, would not decrease the number of tesurs which was necessary.

In view of the foregoing, your request for reactivation of coverage at SNCC is denied. The Bureau will continually keep your needs in mind and if it is possible to reactivate SNCC coverage, further correspondence will be had with your office.

Re Atlanta airtel dated 8/5/65, captioned COMINFIL OF SNCC, IS-C, wherein Atlanta reported the discontinuance of AT 1388-S* and AT 1389-S*.

Atlanta recommends the discontinuance of AT 1383-S* and AT 1384-S*, both of which sources provide coverage on a series of rotary numbers located in the offices of Southern Christian Leadership Conference (SCLC). With the discontinuance of these two sources Atlanta will continue to have coverage on SCLC through AT 1380-S*, AT 1381-S*, AT 1382-S*, AT 1385-S* and AT 1386-S*.

The discontinuance of these two sources is recommended so that coverage previously afforded by AT 1388-S* and AT 1389-S* might be reinstituted on the Student Non-Violent Coordinating Committee (SNCC) immediately.

It is noted that with the discontinuance of AT 1388-S* and AT 1389-S*, all coverage on SNCC was eliminated. It is believed that the Bureau's investigative responsibilities can better be accomplished through the discontinuance of AT 1383-S* and AT 1384-S*, rather than AT 1388-S* and AT 1389-S*, as was done on 8/5/65.

The remaining sources on SCLC will continue to provide adequate coverage of the activities of that organization.

These recommendations are made in full consideration of the volume of traffic and the value thereof. In the event Bureau authorizes this action, new symbol numbers will be assigned sources previously designated as ~~AT 1388-S* and AT 1389-S*~~, and the Bureau will be advised promptly upon effecting such change in coverage.

AT 1380-S* through AT 1386-S* (inclusive) are symbols assigned to a technical surveillance (tesur) of the SCLC Headquarters, 328 Auburn Avenue, N.E., Atlanta, Georgia. Last authorized 7/8/64; installed 7/10/64.

This tesur is our most prolific source of information relating to communist influences in the racial movement through the SCLC. It is of inestimable value. The following are some examples of intelligence obtained during the past 90 days.

On 4/23 and 5/7/65, information obtained concerning planned demonstrations by the SCLC and of individuals with communist backgrounds involved. On 5/7, 19 and 7/12/65, information obtained concerning the counsel and help being given to the SCLC by Stanley Levison, the long-time communist. This information assisted in physical-surveillance coverage establishing Levison's presence in Atlanta for conferences with the SCLC staff including its head, Martin Luther King, Jr. On 5/20/65, information obtained concerning a continued association with the SCLC by Hunter Pitts O'Dell, another long-time communist. On 6/10, 17 and 25/65, information received concerning the association with the SCLC by Bayard Rustin, another advisor to King with a communist background. On 6/7/65, information obtained concerning King's entry into the public arena concerning U.S. foreign policy. On 7/16/65, source advised of unidentified individual who had donated \$25,000 to the SCLC.

In view of the continued voluminous high quality information emanating from this tesur, its continuation for an additional 90 days is recommended. It is noted that on 5/5/65 we furnished the Attorney General a memorandum advising that this tesur would be continued for an additional 6 months unless he instructed to the contrary, which he has not done.

from ELSUR coverage of Southern Christian Leadership Conference.

RE: CIRM

Re Bureau airtel 4/19/65, which authorized survey relative to Tesur on new residence of MARTIN LUTHER KING, JR. This survey was conducted with full security and results of same were furnished telephonically on 5/6/65 to Assistant Director WILLIAM C. SULLIVAN. On the same date, Mr. SULLIVAN telephonically advised that the installation of this Tesur was not authorized at this time.

Survey reflects that telephone service is afforded to the KING residence on two telephone lines. During survey it was ascertained that facilities are limited in this area; however, at that time there were two available spare pairs which would be necessary in order to effect a Tesur. As a result of these limited facilities, orders were given to reserve these two pairs of wires so that if in the future Bureau desires installation it can be effected.

Subject KING during the week of 4/12/65 moved his residence from 563 Johnson Avenue to 234 Sunset Avenue and orders were issued for discontinuance of this leased line. AT 1379-S* is shown to be discontinued after April 30, 1965.

JUNE

CIRM COMMUNIST INFILTRATION IN RACIAL MATTERS

SAC [Roney] of New York called yesterday and advised that Martin Luther King was due to arrive in New York that evening and had reservations at the Sheraton Atlantic Hotel, 34th and Broadway, New York City. He has been assigned Suite 1690 and New York advised that Suite 1690 is available for the use of the New York Office for monitoring purposes. If the Bureau will approve a microphone installation, New York desires to install a Wasp unit which is a radio transmitter requiring no wires to run from the room and which can then be monitored in Suite 1690.

In the past King has had conferences with [Stanley Levison, Harry Wachtel] and other advisors while he was in New York and New York advised that a conference with King, [Levison and Clarence Jones] is scheduled for late afternoon, probably in this hotel room. New York desired to make this microphone installation immediately. [Roney] requested authority so they could proceed with the necessary arrangements.

ACTION:

On New York's assurance that full security was available, and since time was of the essence, I told New York to go ahead with the installation as planned. In accordance to New York's request, New York was also authorized to pay up to \$40 a day for Suite 1690 if necessary for monitoring purposes.

SAC [Roney] called on 1/28/65 asking for authority to place microphone coverage on the rooms King and a traveling companion will occupy in the Americana Hotel in New York on 1/29 and 1/30/65. He advised King had been assigned Rooms 3223 and 3225, and that the New York Office has available for coverage purposes Rooms 3323 and 3325, which are one floor above those occupied by King. [These rooms were obtained without advice to the hotel of the office's interest in King.]

New York stated that in view of King's continued contacts with persons affiliated with communist interests [and his general activities], it was considered desirable that microphone coverage be placed on King while in New York. He is scheduled to arrive in New York early 1/29 and leave late 1/30/65. New York also requested authority to pay up to \$40 a day for the rooms necessary for monitoring purposes.

ACTION:

I authorized New York to go ahead with the microphone coverage since it will only be on for a short time and in view of the potential for developing intelligence information of interest to us. New York also was authorized to make the necessary expenditures for rental of monitoring space.

On 12/31/64 this source provided information indicating that King would meet with one Ralph Helstein, a former Communist Party member.

in the past

AT 1380-S*, AT 1381-S*, AT 1382-S*, AT 1383-S*, AT 1384-S*, AT 1385-S*, AT 1386-S*/comprise a single technical surveillance covering the activities of the Southern Christian Leadership Conference (SCLC), 330 Auburn Avenue, N.E., Atlanta, Georgia. The several symbol numbers result from the various lines installed, originally authorized 10/15/63; installed 11/8/63. Additional lines authorized 7/8/64; installed 7/10/64. The SCLC and its leader, Martin Luther King, Jr., are subjects of intensified Bureau investigation because of the considerable communist influence exerted upon King and the SCLC.

The past 90 days witnessed a continuing flow of much very valuable information, much of which concerns racial matters generally throughout the country. Examples: On 10/15, 20; 11/9, 13, 14, 30; 12/2/64 information obtained concerning the writings and speeches of King and the influence of his associates with questionable backgrounds. On 10/21/64 information obtained revealing the considerable influence over King by Bayard Rustin, a former Young Communist League member. Also learned that the United Auto Workers of America had given \$10,000 to the SCLC. On 12/1/64 information obtained concerning apparent influence of King relative to clearing an individual for a federal judgeship. On 12/8/64 information obtained that the National Science Foundation was to use the SCLC in recruiting applicants for fellowships. On 12/15/64 source advised that the notorious communist, Hunter Pitts O'Dell, was being forwarded a copy of the SCLC budget. On 12/21/64 we learned of King's continuing relationship with O'Dell.

The continued receipt of valuable intelligence from this source reflects the high merit attached to the continuance of this source for an additional three-month period. Same is recommended.

New York called today and advised that King, [Bernard Lee, and Andrew Young] registered at the Park Sheraton Hotel and were assigned Room 2541 and 2543. SAC [Roney] advised that the New York Office had for monitoring purposes the availability of Rooms 2439 and 2441.

In view of the nature of the discussion which King was scheduled to have in New York with [Clarence Jones and Harry Wachtel], it was felt the results of the discussion would contain considerable intelligence information. New York said that through other information which they have developed, it appears the meeting will actually be held in [Wachtel's] office, but New York still strongly recommended use of microphone coverage in the rooms occupied by King's party as the results of the meeting in [Wachtel's] office would later be discussed in the hotel rooms.

In view of King's continued contact with [Clarence Jones, who is King's conduit for contact with communist [Stanley Levison] and in view of other activities of King,] it is considered highly desirable that New York place microphone coverage on these rooms if this can be done with full security. [Roney] assured me full security would be available [and that the individuals involved will be under physical surveillance so the microphone installation could be made during the conference in Wachtel's office.] New York contemplated use of two Wasp instruments, which would not involve running wires out of the rooms and which instruments can be installed with full security.

ACTION:

Under the circumstances, I authorized New York to go ahead with the installation provided it could be done with full security.

[AT 1379-S*] is a technical surveillance on the residence of Martin Luther King, Jr., 563 Johnson Avenue Northeast, Atlanta, Georgia. King is head of the Southern Christian Leadership Conference and a nationally known integration leader. This installation was authorized 10/15/63 and installed on 11/8/63.

This source has provided extremely valuable information on a day-to-day basis regarding the subject's association with individuals of a communist background. This source has shown the influence exerted on King by these individuals:

This source has enabled the Bureau to keep abreast of King's activities in regard to racial matters. Specifically, on 7/11/64 this source provided information indicating that a radio station in Chicago had collected \$20,000 for King's use in the racial movement. This source enabled the Bureau to keep abreast of racial developments in the New York area during the recent racial riots.

This source has shown the influence that Bayard Rustin, admitted former member of the Communist Party, has had and continues to have on King.

This source has provided a great deal of information regarding King's extramarital activities and his dates with numerous women throughout the country. This source is extremely valuable in fully implementing our coverage of King, the Southern Christian Leadership Conference and other racial activities. The Domestic Intelligence Division concurs with the recommendation of the SAC, Atlanta, that this source be continued for an additional three-month period.

We currently have a technical surveillance providing information concerning the activities of the Southern Christian Leadership Conference (SCLC), 330 Auburn Avenue, N.E., Atlanta, Georgia, for the purpose of determining the extent of communist influence upon SCLC leader Martin Luther King, Jr. This installation has provided considerable extremely valuable information relating to communist influences on the racial situation in the United States. King, as far as the general public is concerned, is one of the outstanding civil rights leaders. It is felt that this installation should be continued.

This installation has in the past furnished considerable information regarding the influences upon King and the SCLC by individuals connected with the communist movement. A great deal of this information has not been available from other sources. It is extremely urgent that such information continue to be available to the Bureau, particularly in view of King's prominence in the civil rights field and his contacts with high Government officials. The Bureau's responsibility in obtaining such information cannot be minimized. We are currently conducting intensified investigations on the SCLC and King because of these communist influences. An example of valuable information obtained was information indicating that King was to unleash a public attack upon the Director in April, 1964. Another example is that information was obtained indicating that the SCLC was attempting to have a woman allegedly employed by President Johnson intercede with the President to have the Director issue a public statement to the effect that the SCLC and King were not influenced by communists. Intelligence being received from this source does not involve matters being considered for prosecution.

RECOMMENDATION:

That the above installation be continued.

By teletype 9/26/64, the Savannah Office furnished results of a survey to determine the feasibility of installing microphone coverage of Southern Christian Leadership Conference (SCLC) convention to be held at Savannah, Georgia, 9/29-10/3/64 and in particular activities of Reverend Martin Luther King, Jr., leader of the SCLC. Savannah recommends authority be granted to install such coverage for the purpose of determining the extent of communist infiltration or influence in the racial movement.

King will occupy a suite in the Manger Hotel, Savannah, Georgia, consisting of rooms 901 and 902. [Room 903 has also been reserved for an aid to King.] It is expected that conferences with King at the hotel will be held in room 901 which is a sitting room. Savannah expects to obtain the coverage from room 1002 which is located directly above room 901. The floor on which room 1002 is located consists mostly of salesmen's sample rooms and sleeping rooms are assigned on this floor only when necessary. Savannah advised that security can be assured.

Coverage will be required for four days and three nights and will be effected by radio communication with no visible connection between the two rooms.

It is expected that attempts will again be made to exert influence upon the SCLC and in particular on King by communists. Such coverage is desirable and it is expected that valuable information will be obtained relating to this investigation. The SCLC is currently under investigation to determine the extent of communist infiltration, domination, and/or control. Since this communist influence has in the past been exerted mainly upon King, such coverage is extremely important.

AT 1384-S*, AT 1385-S* and AT 1386-S* are technical surveillances covering activities of the Southern Christian Leadership Conference (SCLC) at 330 Auburn Avenue, N. E., Atlanta, Georgia. These are actually additional lines installed to supplement other coverage of the SCLC. Original authorization was given by the Attorney General 10/21/63 for this coverage. The SCLC and its leader, Martin Luther King, Jr., are subjects of intensified Bureau investigations since it has been determined that communists and communist sympathizers are exerting a great deal of influence over this organization.

Since these additional lines have been installed they have provided extremely valuable information regarding the SCLC and the activities of King. This information includes SCLC involvement in civil rights matters; travel plans of King; plans of the SCLC regarding training civil rights workers; complete itinerary of King's trip to Amsterdam, Holland; contacts of King with female companions; and information concerning forthcoming SCLC convention to be held at Savannah, Georgia, 9/21 - 10/2/64.

In view of the above, it is recommended that these additional lines be continued since they have furnished extremely valuable information since authorized. Justification for these additional lines will henceforth be handled in connection with other installations in operation.

Re Bureau letter to New York, 8/7/64.

Southern Christian Leadership Conference (SCLC) presently occupies Suite 1301, 200 West 57th Street, New York City, telephone number CI 7-3136. *ELSON*

It is to be noted that NY 4550-S* was installed on 7/13/64, and was discontinued on 7/31/64. This source was unable to furnish any pertinent information concerning the SCLC at 15 East 40th Street, New York City. It is also to be noted that NY 4179-S* was installed on 10/24/63, and was discontinued on 1/24/64, and this source was unable to furnish any pertinent information concerning SCLC at 312 West 125th Street, New York City. *ELSON*

In view of the foregoing information, it is felt *ELSON* that it would not be productive at this time to retain NY 4550-S* at the new location of New York office of SCLC, 200 West 57th Street, New York City. However, the NYO will be alert for information from NY 4092-S* and NY 4099-S* sources close to CLARENCE JONES, which might indicate an increase of activity at the SCLC New York office, and if such information is received, NYO will give consideration to submitting a recommendation regarding a survey at the new location. NYO will also be alert for information emanating from the Atlanta Office indicating an increase in activity at SCLC, New York office.

I received a telephone call Friday, 8/21/64, from SAC Bachman concerning technical coverage on King in Atlantic City. You had previously instructed that he explore the possibilities of putting technical and microphone coverage on him there.

Bachman advised that he had made a preliminary security check and that suitable reliable contacts were available at the hotel which would make possible a microphone installation, though it might be necessary to take the hotel manager into confidence to the extent of identifying King as the individual in whom they were interested. Bachman advised that as to the technical installation, a preliminary check revealed this could be done. He noted that a suite of 3 rooms had been set aside at the Claridge for the use of King and others traveling with him.

ACTION:

* Confidential source

I told Bachman to go ahead with the microphone installation if this could be done with the understanding that no one other than the manager would have knowledge of our interest in King, and that neither the manager nor anyone else would have knowledge of the nature of the coverage. I further pointed out that it would be necessary that Newark be in a position to assure full security from a technical point of view.

I also authorized Bachman to go ahead on the telephone installation provided this could be done with full security. It should be noted in this connection we already have authority from the Attorney General to cover any residence which King may use with a technical telephone installation.

King, his wife and children intend to stay in the Smadbeck apartment most of remainder of August, 1964. Bufiles and those of NYO negative re Smadbecks. New York has advised that installation of tesur is feasible and full security is assured. In October, 1963, we received the Attorney General's authority to place a tesur on King at his Atlanta, Georgia, residence or at any future address to which he may move. We previously extended such coverage to temporary residences of King and it is believed most desirable to do so in this instance in view of his association with communists and the very vital matters he is presently concerning himself with, such as the forthcoming Democratic National Convention; the Mississippi situation; the matter of racial disorders

Reurairtel 8/1/64 advising NY 4550-S* had been discontinued.

New York should review and re-evaluate information furnished from this source and in the event information furnished continues to justify the retention of this source, suitable recommendations should be submitted regarding the advisability of a survey to determine whether the source should be moved to cover the new location of the Southern Christian Leadership Conference (SCLC). You should, of course, withhold your recommendations until the new headquarters of the SCLC are settled.

NOTE:

NY 4550-S* is a technical surveillance which covered the activities of SCLC at its headquarters at 15 East 40th Street, New York. This source was installed 7/13/64 and discontinued 7/31/64, since the headquarters was moved to a new location. SCLC is currently under investigation to determine the extent of communist influence, domination, and control. By letter dated 6/30/64 the Atlanta Office requested authority to install 3 additional technical surveillances (tesurs) on the facilities of the Southern Christian Leadership Conference (SCLC), 330 Auburn Avenue, NE, Atlanta, Georgia, for the purpose of providing additional coverage of the SCLC and its leader Dr. Martin Luther King, Jr. If approved, Atlanta desires to utilize SA William F. Kusch of the Miami Office to install these surveillances. Atlanta also requested 2 recorders for use in conjunction with these installations.

On 10/21/63 the Attorney General approved installation of tesurs on the SCLC at its current address or at any future address to which it may move. There are currently 4 tesurs in operation on the SCLC which were installed 11/8/63. With the addition of the 3 additional surveillances there would be in operation a total of 7 tesurs. The 3 additional surveillances are desirable to provide coverage of additional telephone service recently secured by the SCLC.

The SCLC and Martin Luther King, Jr., are subjects of intensified Bureau investigations inasmuch as it has been determined that communists and communist sympathizers exert a great deal of influence over this organization. The 4 surveillances already in operation have provided extremely valuable information regarding the activities of the SCLC and King, much of which is not available through any other source. The surveillances have been most valuable in uncovering the extensive communist infiltration and domination of both King and the SCLC.

Atlanta desires to utilize SA Kusch to install these additional surveillances, if approved, since the Agent trained for this purpose in the Atlanta Office is known to King as well as other employees of the SCLC and full security can be assured only through having an Agent unknown in the Atlanta area handle the installation. SA Kusch has handled matters of this type in the past.

RE: COMMUNIST PARTY, USA

COMMUNIST INFLUENCE IN RACIAL MATTERS

100-3-116

Atlanta anticipates that the services of an additional

investigative clerk will be required during normal office hours of the SCLC to insure full coverage in the event the additional tesurs are authorized.

OBSERVATIONS:

Since the Attorney General has already authorized technical coverage of the SCLC and King, additional authority is not necessary since this is merely an extension of current coverage brought about by additional telephone service within the SCLC.

RECOMMENDATIONS:

1. That the attached letter to the Atlanta Office be approved advising that additional coverage requested is authorized and that the Atlanta Office will be advised by separate communication concerning the utilization of SA Kusch to handle the installation and the additional equipment requested from the Laboratory.

2. That this memorandum be referred to the Administrative Division for a determination as to whether SA Kusch is available and to the Laboratory in order that the equipment requested may be furnished to the Atlanta Office. It is suggested that the Administrative Division coordinate its findings regarding the availability of SA Kusch with the Laboratory in supplying additional equipment requested.

AT 1379-S* is a technical surveillance in the residence of Martin Luther King, Jr., at 563 Johnson Avenue, N.E. Atlanta, Georgia. King is the head of the Southern Christian Leadership Conference (SCLC). This installation was authorized 10/15/63 and installed on 11/8/63.

This source has provided extremely valuable information on a day-to-day basis regarding the subject's association with present and former Communist Party members. This source has shown the influence exerted by King on these individuals. This source has shown the continued relationship of the subject with Stanley Levison, a concealed member of the Communist Party. This source has shown that King continues to depend upon the advice and guidance of Levison.

This source during April, 1964, produced information that King had received a \$500 check from Stanley Levison. In April this source furnished information relative to contact of the subject with Harry Wachtel, a security subject in the New York Office. This source has enabled the Bureau to keep close contact with the movements of King throughout the country and has furnished valuable information in regard to racial activities.

This source has provided a great deal of information regarding King's extra marital activities and his dates with numerous women throughout the country. This source is extremely valuable in fully implementing our coverage of King, the SCLC and other racial activities. The Domestic Intelligence Division concurs with the recommendation of the SAC, Atlanta, that this source be continued for an additional three-month period.

Authorized 10/15/63; installed 11/8/63. *FLS 4RS*

During the past three months this surveillance has continued to supply a large volume of extremely valuable information concerning the SCLC and its leader, Martin Luther King, Jr., who are the subjects of intensified Bureau investigation because of communist influences bearing upon the organization and King. Examples: On 3/22/64, 6/1 and 26/64 information received concerning travel plans of King and other SCLC people. On 3/30/64 and 4/21/64 vital information obtained concerning association between King and Stanley David Levison, an extremely close communist advisor. On 4/14, 15, 23/64 and 6/1/64 information obtained concerning financial operations of the SCLC. On 4/7/64 advance information obtained concerning King's presence at a Chicago civil rights rally in June, 1964. On 4/24/64 information obtained concerning a conversation between King and his secretary regarding King's public attack on the Director. On 5/13, 22/64 and 6/6, 10/64 information obtained concerning activities and plans of the SCLC in connection with the St. Augustine, Florida, racial situation. On 6/25/64 we learned that an SCLC officer was attempting to have a woman allegedly employed by President Johnson intercede with the President to have the Director make a public statement that the SCLC and King are not influenced by communists.

The continuing heavy flow of extremely valuable intelligence from this source indicates the desirability of continuing this source for an additional three-month period. This is recommended.

Re Bureau letter dated 6/2/64.

With full security survey completed on facilities of the Southern Christian Leadership Conference (SCLC), 330 Auburn Avenue, N.E., Atlanta, Georgia, it is noted there are presently four Tesurs currently in operation at this facility.

Survey reflects there are three additional lines serving Southern Christian Leadership Conference which should be covered in addition to the four already being covered with Tesurs.

- (1) is a WATS line providing interstate long distance service.
- (2) is an unlisted number (522-2494) which phone is located only in office of Dr. MARTIN LUTHER KING, JR.
- (3) is an additional number located in rotary with others and serving switchboard.

In the event the Bureau authorizes installation of Tesurs on above as indicated, a total of seven Tesurs will be working on the facilities of SCLC which includes five numbers in rotary serving SCLC switchboard, one line serving unlisted private phone of KING and one line serving an interstate WATS line.

The Bureau's attention is directed to Atlanta "June" letter dated 10/10/63 captioned "Dr. MARTIN LUTHER KING, JR. SM-C" wherein reasons were set forth justifying the subsequent utilization of SA W. KUSH of the Miami Office in this instance. Conditions are still as before and it is believed that a sound Agent assigned to another office should make the actual tie in as before in order to assure full security.

COMMUNIST INFLUENCE IN RACIAL MATTERS

INTERNAL SECURITY - C

You will recall that at the Seat of Government conference attended by two Agents of your office on December 23, 1963, for the purpose of exploring possible avenues of additional investigation in connection with captioned matter, it was decided that because of the necessity for an extremely discreet approach by the Bureau in this matter and because certain facets of our investigation were then relatively new, this matter would be reappraised in approximately 90 days. In the interim, your office was to give consideration to a number of matters having potential for further inquiry. These included: possibilities of anonymous source contacts; possibilities of utilizing contacts in the news media field; initiating discreet checks relative to developing background information on employees of the Southern Christian Leadership Conference (SCLC); remaining alert to the possibility of capitalizing on any disgruntled SCLC employee; the possibility of developing information concerning any financial dealings of King which may be illegal; and the development of subversive information pertaining to SCLC employees.

The Bureau appreciates the suggestion recently made by you that another conference be held at the Seat of Government with representatives of both your office and the New York Office because of the extensive coverage being given by New York in this matter. The Bureau has given thorough consideration to this suggestion but believes that at this time, rather than a conference, receiving offices should make a thorough self-analysis of the handling of this case and related aspects such as investigations of individuals and organizations close to the communist influence in racial

matters. Some of the things to be considered are those enumerated above although they should not be considered as all-inclusive. Of particular consideration should be the matter of Fred Bennett of Atlanta as it would appear that intensified coverage of him might develop pertinent information relating to Martin Luther King. This specific matter was brought to your attention by other correspondence recently.

At this time it is desired that both receiving offices give the matter of instant investigation a thorough analysis with a view toward suggesting new avenues of investigation and intensification in areas already being explored. Bear in mind the main goals in this matter; namely, determining the extent of the communist influence in racial matters and taking such action as is appropriate to neutralize or completely discredit the effectiveness of Martin Luther King, Jr., as a Negro leader because of the communist influences upon him.

Within 15 days of the receipt of this letter, Atlanta and New York should furnish the Bureau observations and recommendations in accordance with the foregoing.

matters. Some of the things to be considered are those enumerated above although they should not be considered as all-inclusive. Of particular consideration should be the matter of Fred Bennett of Atlanta as it would appear that intensified coverage of him might develop pertinent information relating to Martin Luther King. This specific matter was brought to your attention by other correspondence recently.

At this time it is desired that both receiving offices give the matter of instant investigation a thorough analysis with a view toward suggesting new avenues of investigation and intensification in areas already being explored. Bear in mind the main goals in this matter; namely, determining the extent of the communist influence in racial matters and taking such action as is appropriate to neutralize or completely discredit the effectiveness of Martin Luther King, Jr., as a Negro leader because of the communist influences upon him.

Within 15 days of the receipt of this letter, Atlanta and New York should furnish the Bureau observations and recommendations in accordance with the foregoing.

CONFIDENTIAL VOUCHER FROM SAN FRANCISCO
\$1,521.24 3/11/64

808R2
Re Bureau routing slip dated 3/20/64, questioning various expenditures out of the confidential fund of the San Francisco Office and specifically with regard to expenditures in the amounts of \$142.66 and \$257.28. A copy of the Bureau routing slip is attached and there is also attached a copy of an airtel from San Francisco to the Bureau dated 2/25/64, setting forth in chronological order the events which occurred on this special assignment in Honolulu, the difficulties overcome, and the reasons for the various expenditures made.

The purpose of this present memorandum is to further explain the nature of some of the expenditures and the reasons therefor. It must be understood that the five Agents involved in this special assignment were under instructions that under no circumstances could they be "made" by the Subject and members of his party, and that under no circumstances could they be identified by the Subject and his party or anybody acting on his behalf as FBI Agents.

At the conference in Assistant Director Sullivan's Office on 2/3/64, based upon the previous experience of the Washington Field Office at the Willard Hotel under somewhat similar circumstances, it was agreed that for effective operation, it was necessary to survey the construction of the hotel building involved as far in advance as possible in order to determine the effectiveness of our technical equipment. It was also agreed that if at all possible it would be necessary to get rooms adjacent to the Subject's in order that our technical transmitting equipment be most effective. Based upon the experience of the Washington Field Office, it was planned that "towers" or listening

posts be set up in hotel rooms next to the Subject and that once the Agents were put in these towers they were to stay there to provide security for the equipment, to provide security for themselves (so they would not be seen), and that one or more of them ordinarily would leave the room only when the Subjects were known to be out of their room or were sound asleep. This practice was followed in Honolulu and the rooms rented were definitely not for the personal convenience of the Agents and were occupied under the conditions outlined above.

As seen beginning in the last paragraph on page 3 of the attached copy of the airtel, it was extremely difficult for SAs HARRY F. CLIFFORD, JR. and FORDYCE G. LYMAN even to get into the Hawaiian Hilton Village Hotel where the Subject was to be quartered in order to experiment with the equipment. As noted on pages 4 and 5 of the attached airtel, it appeared for a time as if it would be impossible to obtain space immediately next to the Subjects and, therefore, when SAs ALBERT P. CLARK, ROBERT U. MANN, and RICHARD E. STEPHENS arrived in Honolulu on Saturday, 2/15/64, a room was obtained for them as close to the building in which the Subject was eventually to be quartered as possible. Confidential Bureau equipment was put into that room, experimented with, and guarded in the same manner as noted above.

When information was received that the Subjects were going to eventually move to the Kahala Hilton Hotel a new problem presented itself. SAC PRICE of the Honolulu Office explained that this was the newest, most expensive, and most luxurious hotel in the Hilton Chain.

On 2/13/64, SAs CLIFFORD and LYMAN determined that it would be necessary to make a survey of the construction, room layout, etc. of the Kahala Hilton Hotel with special emphasis on so-called "common walls" in which the electrical and telephonic installations on rooms side by side backed into each other. They went out to the hotel with the plan that one would try to appear as a guest of the hotel who was meeting the other as a friend of the guest. On arrival at the hotel they determined that the vast ornate lobby was totally unoccupied, that the halls had little or no traffic in them, and that the hotel had as its guests wealthy people, generally rather elderly, who were very sedate and obviously able to afford to stay at such a place. At

the time of his first view of the lobby and public views of the hotel, SA CLIFFORD got the impression it was like a huge mausoleum except the bodies in it were alive. In carrying out their plan, therefore, they had to act like the other guests acted. One would go up in an elevator, prowl the halls discreetly as much as possible, looking for an open door where a maid was making up the room and saunter into the room, engage the maid in conversation, and at a quick glance try to set in his mind the typical room layout with particular attention to electrical connections and common wall potentials. The other in the mean time would proceed to the grill and bar as if he were expecting a friend. The first then would descend in the elevator as if he were a guest in the hotel and invite the friend to have a drink and a bite to eat. This same technique was repeated after the other three Agents arrived and this accounts for the expenditures on 2/13, 16, and 17/64, which we believe were fully justified in order to maintain discretion, elude the security force we knew to be at the hotel, and still prepare ourselves for what we knew would be a tough nut to crack.

Page 6 of the attached airtel sets forth the information that the principal Subject was located in Room 405 of the ocean tower building of the Hawaiian Village Hotel and also occupied Room 404 for members of his party. Room 405 was a corner room with balconies on two sides. Room 406, which was occupied by Agents, was on one side and Room 403, which was also occupied by Agents, was on the other side of Room 404. All of these latter rooms had one balcony each on the outside of the building. It was necessary to rent these rooms for official business and occupy them at all times on a 24-hour basis, not only to protect our equipment, but to effect the actual installations made.

The five Agents involved were spread very thin inasmuch as at no time were Rooms 404 and 405 left unassigned to occupants. Both these two rooms were occupied when the Agents were able to get rooms along side them and there was actually an overlap in technical occupancy due to the time element before the previous occupants got out and the Subject and his party moved in. Therefore, the installations had to be made while the

SF 100-51914A

HFC/jr

rooms were technically occupied, but in the absence of the actual occupants. The very limited manpower was deployed as follows:

The two technical Agents entered Room 405 and made the actual installations. One Agent stood on a chair inside the door of Room 406 and viewed the hall leading from the elevators through the jalousie transom. Another Agent stood on a chair inside Room 403 and looked along the hall and balcony leading to an outside stairway in the other direction. The fifth Agent was in the lobby near the house telephone in an attempt to give warning should the Subjects head for one of the many elevators or the stairway.

The service provided by this hotel in this crowded resort area is quite different than encountered in a continental hotel. Besides cleaning the rooms once a day, the maid enters the room in the early evening and turns down the beds. In addition, she or the security force makes a room check twice a day to be sure that everything is in order. Each time the maid enters the room, she merely knocks on the door, puts a master key in the door, and opens the door. We anticipated, therefore, that the rooms occupied by us would be checked four times a day. We had to have Agents in the room at all times and, therefore, the particular Agent in the room at any given time feigned illness and insisted that the room not be cleaned up, but that he would handle it himself.

Once the Subject moved into Room 405 we realized that we could not be seen as occupying adjoining rooms in the Hawaiian Village Hotel and later be seen as occupying adjoining rooms at the Kahala Hilton Hotel. This was particularly true of SA CLIFFORD who is easily identified because of his white hair. Therefore, once SA CLIFFORD moved into Room 406, he did not leave the room until he departed for Los Angeles on Bureau instructions except to duck down ~~to the~~ open-air lobby late at night to make emergency telephone calls to the Honolulu Office with instructions to call Los Angeles and the Bureau from a public telephone booth.

100-51914A

The summary transcript shows that the installations in Room 405 were monitored from the time of the entrance of the Subjects at 2:12 p.m., 2/18/64 until 11:45 p.m. that night and monitoring began Wednesday morning, 2/19/64, at 7:06 a.m. and continued to approximately 1:30 a.m., Thursday morning, 2/20/64. It is obvious that these rooms were used for official business and not for the personal convenience of the Agents.

With regard to the Bureau's inquiry concerning the Kahala Hilton Hotel, on Wednesday morning, 2/19/64, SAs CLARK, MANN, and LYMAN were dispatched early in the morning to the Kahala Hilton Hotel to provide coverage of the Subjects in advance because the latter were expected to move to the Kahala Hilton Hotel at noon time on Thursday, 2/20/64. As noted at the bottom of page 7 of the attached copy of the airtel, we were able to effect an arrangement with the hotel whereby rooms would be allocated as we desired, four to the Subjects and three to ourselves. We made this agreement with the hotel which was 75% occupied: That if their occupancy reached the point whereby they would lose payment for one night for the four rooms reserved for the following night for the Subjects, we would reimburse the hotel for these four rooms at whatever rate the rooms were rented for. With regard to the other three rooms, our three Agents would check into those rooms expecting to occupy the rooms the night of the 19th and would pay the regular rate for the occupancy. These seven rooms ran from \$27.00 per day to \$40.00 per day with an estimate average rate of \$35.00 per day or an overall cost of \$245.00 a day, if it had become necessary to pay for them.

As noted at the bottom of page 7 and top of page 8 of attached airtel, Agents worked all day and all evening making installations and then had to work all night removing the installations. Therefore, they did not occupy the rooms as normal guests and certainly it was not for their personal convenience. Because of the quality of the SAC Contact at the hotel and because no demand had been made for these rooms by other guests or potential guests, the hotel suffered no monetary loss and did not charge us for the four rooms set aside for the eventual occupancy of the Subjects, nor for the three rooms utilized, but not really occupied by the three Agents.

In the mean time, SAs CLIFFORD and STEPHENS remained in Rooms 403 and 406 at the Hawaiian Village Hotel and monitored the combined installations. They did not leave these rooms until Thursday morning, 2/20/64, when the other three Agents returned from the Kahala Hilton Hotel with the equipment, helped pack it, and sent SAs CLIFFORD and LYMAN to the airport to hurry to Los Angeles.

After SAs CLIFFORD and LYMAN departed for Los Angeles on Thursday, 2/20/64, SAs CLARK, MANN, and STEPHENS cleared the equipment out of the rooms occupied by the Subjects and out of Rooms 403 and 406 occupied by the Agents to monitor and surveil the Subjects, and took it down to the field office in order to begin packing it for shipment. It is noted that they paid cash for the room rent of Room 406, which they retained, for the nights of 2/21/64 and 2/22/64 because the Bureau equipment had been removed and security precautions were no longer necessary. They then "mopped up" the operation and returned to San Francisco on Sunday, 2/23/64. The nights of 2/21-22/64 were the only nights where it could be said that the room was occupied for the Agents personal convenience because no Bureau equipment was installed in the room and in this instance the Agents paid for the room each night in cash.

The Bureau has acknowledged that this assignment was successful as far as it went and the only way to handle it was the manner in which it was handled, by getting first near the Subjects, then next to the Subjects, and working around the clock where necessary.

It is hoped that this fully explains the reason for the highly confidential, but absolutely necessary expenditures made.

ADDENDUM:

Item 9

1. Date Information Furnished: 12/17/63

2. Nature of Information

MARTIN LUTHER KING, JR., told an unknown acquaintance that "they", meaning Southern Christian Leadership Conference, needed to get together and have a two day retreat in North Carolina. The retreat KING had in mind is owned by the Episcopal Church near Asheville, North Carolina. He wanted staff members to be present as well as four or five others like HARRY WACHTEL and BAYARD RUSTIN.

3. Value and Action Taken

Advance notice of an important Southern Christian Leadership Conference meeting where persons with Communist backgrounds were in attendance. Information set forth in Letterhead Memorandum and Charlotte was advised.

1. Date Information Furnished: 12/21/63

2. Nature of Information

HARRY WACHTEL told KING that RALPH ABERNATHY (Treasurer of Southern Christian Leadership Conference) and FRED BENNETT (Field Representative of Southern Christian Leadership Conference), as well as KING, should be present when the libel suit was argued by WILLIAM ROGERS, former Attorney General; before the Supreme Court in Washington, D. C. (This referred to a libel suit filed by State of Alabama officials against the "New York Times" and certain Southern Christian Leadership Conference officials.)

3. Value and Action Taken

This enabled the Bureau to learn of WACHTEL's involvement in the libel case in advance. This information was submitted to the Bureau and interested offices by airtel.

ADDENDUM:

1. Date Information Furnished: 12/26/63

2. Nature of Information

WYATT WALKER (Executive Director of Southern Christian Leadership Conference) instructed a contributor to Southern Christian Leadership Conference to make their check out to "Southern Home Mission Work" and send it to KING's church in Atlanta, (Ebenezer Baptist Church). WALKER indicated that some sums as large as \$5,000 are given directly to KING's church in Atlanta in order to avoid taxes (since Southern Christian Leadership Conference is not a tax-exempt organization).

3. Value and Action Taken

The nature of the handling of contributions by Southern Christian Leadership Conference to avoid taxes presents a possible counter-intelligence opportunity. The information was submitted to the Bureau.

1. Date Information Furnished: 1/8/64

2. Nature of Information

HARRY BOYTE, Executive Assistant of KING, advised that he had made reservations in the Holiday Inn Motel in downtown Atlanta in his true name and address. BOYTE, who is white, said the plan was to have a couple hundred Negroes stage a sit-in in the lobby and when they are asked to leave they would say they had been invited to BOYTE's suite for a conference.

3. Value and Action Taken

This information enabled the Atlanta Office to know about a racial situation before it occurred. An anonymous call prevented the situation from developing. Although there were demonstrations at this motel, BOYTE was unable to obtain the desired reservations which prevented the situation from progressing as far as it probably would have.

ADDENDUM:

1. Date Information Furnished: 1/8/64

2. Nature of Information

Information regarding KING meeting DOROTHY COTTON alone in FRED BENNETT's apartment and the fact that KING had been seen during the holiday season by some of his staff leaving BENNETT's apartment in the early morning hours with a girl friend.

3. Value and Action Taken

Possible counter-intelligence potential. Information furnished to the Bureau.

1. Date Information Furnished: 1/10/64

2. Nature of Information

Advanced information on plans for RODMAN ROCKEFELLER of the West Chester Urban League, New York, New York, to have a fund raising luncheon at the ROCKEFELLER estate in West Chester for KING.

3. Value and Action Taken

Bureau benefits from advanced information regarding the accrual of certain benefits toward KING and his organization. Letterhead Memorandum was submitted.

1. Date Information Furnished: 1/14/64

2. Nature of Information

KING and BETT WALKER sent a telegram to the Deputy Director of the U. S. State Department, Eastern European and Soviet Section, Washington, D. C., advising that they had learned that visas for the Soviet Peace Committee had been denied. The telegram urged that the best interest of the Soviet - U. S. relations would be served if the visa matter was reconsidered and granted in light of comparable courtesy extended to the U. S. Peace delegation by the Russians. A Letterhead Memorandum was submitted.

ADDENDUM:

1. Date Information Furnished: 1/23/64

2. Nature of Information

HARRY WACHTEL was in contact with CORDY T. VIVIAN (Director of Affiliates of Southern Christian Leadership Conference) and requested that a letter which was being prepared regarding the Gandhi Society be forwarded to WACHTEL and CLARENCE JONES for final approval before printing. WACHTEL requested that the letter be sent to him c/o 711 Fifth Avenue, New York.

VIVIAN was identified by Springfield informant in 1947 as a member of the Community Section of the Communist Party, Peoria, Illinois, at that time.

3. Value and Action Taken

Shows WACHTEL's influence on Southern Christian Leadership Conference as well as VIVIAN's activities in these matters. A letterhead memorandum was submitted.

1. Date Information Furnished: 1/2/64

2. Nature of Information

KING said the Southern Christian Leadership Conference planned to have a meeting (which was eventually held about 1/20/64 for two or three days) at Black Mountain, North Carolina. KING said this meeting would be held in order to map the specific strategy for the next few months. He planned a three day retreat at which time he would meet with about twenty people to plan the program. Among those to attend would be HARRY WACHTEL, CLARENCE JONES, BAYARD RUSTIN and CORDY T. VIVIAN.

3. Value and Action Taken

Shows possible Communist influence in Southern Christian Leadership Conference. A Letterhead Memorandum was submitted with this information and it was also included in a report on COMINFIL of SCLC.

ADDENDUM:

1. Date Information Furnished: 2/6/64

2. Nature of Information Furnished

Source furnished information that CORDY T. VIVIAN was active in promoting a state-wide Civil Rights meeting to be held in Montgomery, Alabama, by Southern Christian Leadership Conference on 3/4/64.

3. Value and Action Taken

Advanced knowledge of racial activity. Information submitted in Letterhead Memorandum.

1. Date Information Furnished: 2/4/64

2. Nature of Information Furnished

HUNTER PITTS O'DELL told EDWINA SMITH that the best way for KING to fight allegations of "red" infiltration of the Southern Conference Educational Fund (SCEF) was to use pressure on the president (President JOHNSON) by reminding the president that AUBREY WILLIAMS described as "the guiding light of SCEF" had been heavily depended on by the president regarding obtaining information for him on the Civil Rights and Negro situation. O'DELL strongly urged EDWINA to impress this on KING so the president could be forced to defend WILLIAMS and SCEF.

3. Value and Action Taken

Shows possible influence of a Communist Party National Committeeman on Southern Christian Leadership Conference and KING. Also shows Bureau tactics to be used by subversives in order that White House can be notified. Letterhead Memorandum was submitted.

ADDENDUM:

1. Date Information Furnished: 2/26/64

2. Nature of Information Furnished

Source said that Sergeant SHRIVER, Washington, D. C., told KING's Secretary he, SHRIVER, was doing a report on poverty in the U. S. for President JOHNSON. It was indicated that SHRIVER would like for KING to go to Washington, D. C., 2/27, 28, or 29/64 for a conference before he turned in the report in order that he could have KING's views.

3. Value and Action Taken

Information showing influence of KING on government officials. A Letterhead Memorandum was submitted.

1. Date Information Furnished: 3/4/64

2. Nature of Information Furnished

One of KING's girl friends, BARBARA MEREDITH, told an employee at the SCLC office that KING had "told off" another employee of Southern Christian Leadership Conference because of dissension about starting salaries of the SCLC employees. KING and other SCLC employees argued for two hours about various other SCLC employees. This took place at a small party of SCLC employees. KING got very drunk and made uncomplimentary remarks about some of the SCLC personnel.

3. Value and Action Taken

Counter-intelligence type material showing dissension within the ranks. A letter was submitted to the Bureau and New York.

1. Date Information Furnished: 3/10/64

2. Nature of Information

WYATT WALKER mentioned that since Southern Christian Leadership Conference was not a tax deductible organization many large gifts by individuals were directed to Ebenezer Baptist Church. (This is the church where KING and his father are co-pastors).

ADDENDUM:

KING told his Secretary, DORA McDONALD, that certain money going to "the church" should be drawn out to him from the church fund but not all at one time. He also instructed similar handling of funds to be drawn out in RALPH ABERNATHY's name.

3. Value and Action Taken

Counter-intelligence information from the tax angle. Letterhead Memorandum submitted to the Bureau.

1. Date Information Furnished: 3/9-10/64

2. Nature of Information

Source put STANLEY DAVID LEVISON (secret Communist Party member) in the SCLC Headquarters Office with KING.

3. Value and Action Taken

Aided physical surveillance in putting KING and LEVISON together and enabled Agents to make this observation discretely.

18. Recommendation by Assistant Director:

(If this surveillance involves cryptanalysis, include statement that decrypted material is or is not sufficiently important to continue decrypting.)

AT 1380-S*, AT 1381-S*, AT 1382-S*, and AT 1383-S* /
comprise a technical surveillance on the office of the Southern Christian Leadership Conference (SCLC) at 330 Auburn Avenue, N.E., Atlanta, Georgia. Authorized 10/15/63, installed 11/8/63.

The SCLC and its leader, Martin Luther King, Jr., are the subjects of intensified Bureau investigations inasmuch as it has been determined that communists and communist sympathizers exert a great deal of influence over this organization. During the past three months, source provided valuable information regarding a conference planned and held by King and SCLC officials in North Carolina in January, 1964. Source reported that this conference was attended by numerous individuals who were either former members of the Communist Party (CP) or CP fronts. Source provided information in February, 1964, regarding Hunter Pitts O'Dell, a former SCLC employee who has been identified as a former member of the CPUSA National Committee. Source reported that O'Dell indirectly furnished advice to King to the effect that pressure should be brought to bear on President Johnson in order to eliminate "red baiting" tactics against the SCLC. The source also provided information to the effect that financial contributions to the SCLC, which is not a tax exempt organization, were being diverted to the church of which King is pastor in order to avoid taxes. In March, 1964, source provided extensive data regarding a visit by Stanley Levison, a secret, highly placed communist, with King at SCLC headquarters in Atlanta.

Source also provides day-to-day information regarding King's promiscuous extramarital activities as well as the identities of his "girl friends." Source has been most valuable in uncovering the extensive communist infiltration and domination of both King and the SCLC.

Domestic Intelligence Division concurs with the recommendation of SAC, Atlanta, that source be continued for an additional three-month period.

Source provided extremely valuable information on a day-to-day basis regarding subject's association with present or former Communist Party (CP) members and the influence exerted by these individuals on King in carrying out the business of the Southern Christian Leadership Conference (SCLC). In January, 1964, source reported that King is closely associated with Bayard Rustin, a former communist, and that plans were in the making to hire Rustin by the SCLC. Source continues to provide information regarding King's and the SCLC's affiliation with Clarence Jones, former Labor Youth League member; Stanley Levison, who was identified as a concealed CP member recently; as well as other individuals who have subversive histories. This coverage reveals that Levison dominates King to a great extent and that King consults with Levison frequently regarding the operations of the SCLC. This source has made it possible for us to conduct discreet physical surveillances which show actual contacts and association between Levison and King.

Source also provides a great deal of information regarding King's extramarital activities and the numerous women with whom he is carrying on. Source is extremely valuable in fully implementing our coverage of King and the SCLC, and the Domestic Intelligence Division concurs with the recommendation of SAC, Atlanta, that source be continued for an additional three-month period.

We learned that Martin Luther King is in Detroit today and will be there overnight. ASAC Callaghan of Detroit phoned to advise me that King is at the Statler Hotel, with an associate, Bernard Lee. They have Rooms 1270 and 1272. Our agents are secure in Room 1274.

Lee was one of King's associates during the Willard Hotel escapade in Washington in January, 1964. There is a strong possibility that a similar "entertainment" will take place in Detroit.

ACTION:

In view of the time element involved, I authorized Detroit to effect a microphone surveillance to cover King's activities, which Detroit has advised can be effected with full security.

FOR TELEPHONIC BRIEFING OF DETROIT OFFICE

Known Information as to King's
Presence in Detroit

King arrived in Detroit sometime yesterday (3-18-64) with Bernard Lee, Field Secretary, SCLC. They are to be in Detroit all of today (3-19-64) and until late afternoon of tomorrow (3-20-64) when they will likely fly to the Canton-Akron (Ohio) airport. King is scheduled to speak at the "Central Church," Detroit -- probably today (19th) although there is possibility it might be the 20th. Arrangements made through FNU Dewar (PH), Detroit phone 965-5422. Dewar making arrangements for Phillip Lynard (PH). Dewar and Lynard believed connected with "Central Church."

(1) Give Detroit general briefing on our goal as to coverage of King, citing Willard and Honolulu-Los Angeles experiences.
STRESS THAT SECURITY IS PARAMOUNT.

(2) Determine where King is staying.

(a) Files may reveal where he has previously stayed in Detroit.

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized personnel without the express approval of the FBI.

(b) Pretext calls to selected first-rate hotels -- he always goes first class.

(c) Pretext to "Central Church."

(d) There is likely news publicity on his presence in Detroit and same may reveal where he is staying. Under no circumstances should any request be made of any news media contacts no matter how established and reliable they may be.

(3) Once it is determined where King is staying, does that hotel have an established reliable source? We must deal through only one person at the hotel.

(4) Will it be possible to effect necessary coverage on King's room? Consider use of the remote-type equipment. Will you be able to get a near-by room from which to work if remote-type equipment is used?

- 2 -

(5) Imperative that only the most proficient personnel be used. Pick your very best men for this type of operation without regard to what squads they may be assigned to.

(6) Be alert to the possibility that King may be given police protection as he has in the past in which event it may dictate actions you will take, especially if the police are stationed near his hotel room.

(7)) Take no positive action as to any installation without receiving prior Bureau authority. This phone call, however, may be considered as authority for necessary survey

(8) While there is no indication that the following two individuals are to be in Detroit, be alert for their presence as they have previously engaged in these "entertainments" with King. One is King's Executive Assistant, Wyatt Walker, and the other is Reverend Logan Kearsce of Baltimore. Both are Negroes and Kearsce has been known to act as "procurer" for these entertainment

(9) If developments are favorable and a "party" comes off with good coverage by the Bureau, we would consider, if all circumstances were favorable, having such a party raided by the police. However, this would require diligent planning and prior Bureau authority. While it is not likely this will come to pass in Detroit, it is worth keeping in the back of the mind.

ReBulet 3/12/64 and previous Bureau communications which furnished observations concerning recent handling by the Atlanta Office of information being obtained through highly sensitive sources.

The specific question raised in Bulet 3/12/64 concerning the reason why a tape recording was furnished to the Bureau and the disposition of same is answered as follows. The office mistakenly thought that Bureau officials might be interested in listening to this particular recording. It is requested that this tape be returned to the Atlanta Office.

Based on Bureau comments in this general matter the ASAC and myself have held a lengthy conference with those individuals, including the supervisor of the squad, responsible for this case and technique in the Atlanta Office. A complete airing of procedures that are to be followed in maintaining this installation, appropriate dissemination of significant information, necessary investigative steps to be taken therefrom and detailed coordination and paper work procedures have been reviewed. It is the sincere belief of this office that the constructive observations raised by the Bureau will be fully heeded and followed. It is anticipated that this installation and results therefrom will be handled in strict accordance with existing procedures in the security field.

Without offering any excuse it is pointed out that certain administrative problems in initiating this coverage have been ironed out and responsibilities fixed, it being borne in mind that this office has not been actively engaged in such a field for some previous time.

This document is prepared in response to your request and is not for dissemination outside your Committee. Its use is limited to official proceedings by your Committee and the content may not be disclosed to unauthorized person.

The only positive observation that this office can furnish at this time is that in view of the fact that the experience on this surveillance now covers approximately a five-months period, it is felt that a worthwhile evaluation based on the experience to date would serve a specific purpose at this time. It is suggested that this be accomplished by a conference of the necessary Bureau officials and two representatives from this office made up of either the SAC or ASAC and the supervisor directly responsible for this activity. In view of the direct relationship between coverage being afforded in the New York area in this general subject matter it would appear that the appropriate representative or representatives of that office could also profitably attend such a one-day conference.

In the absence of the Bureau's opinion or an observation on the above this office will continue to stringently control this installation in accordance with the Bureau's desires.

ReBulet 3/9/64 captioned as above setting forth the Bureau's observations relative to various sensitive sources in the Atlanta Office.

The Bureau's observations relative to placing on tape all telephone calls deemed important has been called to the attention of appropriate personnel. In this connection it is pointed out that normally it is not possible to determine whether a telephone call is important or unimportant until after the call has been placed and the contents of the call noted. However, appropriate personnel have been instructed that if there is any indication whatsoever that a telephone call is an important one they should resolve the matter by placing the call on tape for future reference.

With respect to the phonetic interpretation of certain unusual names received from these confidential sources, we have placed these calls on tape but after playing back the tapes we still at times can make no more positive interpretation than that made at the outset when the call was initially heard. As the Bureau is aware, individuals making the calls use abbreviations, slang, colloquialisms, have regional accents, and at times talk like they have a "mouth full of mush." We have noted that often the same name is used more than once in a particular conversation and each time the name is used it sounds different. This is particularly true if the name used is an unusual one. In many instances it is highly likely that two, or even more, possible phonetic interpretations can be made from the tapes, particularly if the individual is from some other area of the country and is unknown to this office. As a result the most logical sounding interpretation of the name is utilized. Regardless of this, appropriate personnel have been cautioned that they must be absolutely accurate and every effort will be made to report a correct analysis of the information obtained.

(3)

5 MAR 19 1964

With respect to travel of the individuals involved, past experience has shown that on frequent occasions we will receive information with respect to confirmed reservations for various flights throughout the country. If we do have this information the Bureau and interested offices are, of course, immediately advised. Subsequently we have noted that these reservations will be cancelled with very little notice and entirely different arrangements made immediately thereafter. In instances of this nature the interested office is immediately advised telephonically.

A characteristic of the main personality involved in this investigation reflects that he normally leaves his residence or office for the airport thirty minutes prior to flight time. It is a normal 30-minute drive to the airport and leaves little, if any, time for boarding a plane. On occasions personnel of his office have detained flights for him for five to ten minute intervals so that he might make certain flights, and generally he is the last person to board any flight. This dilatory tactic has resulted in some flight plan cancellations. This relaxed and carefree attitude has caused a variance in flights reportedly to be taken by the principal personality and flights actually utilized. When this situation does develop every effort is made to follow by phone call with correct travel plans.

Specifically as to the flight on 2/29/64 KING made request for reservations on the United Flight leaving around 2:00 A.M., according to source. Source reported he had confirmed reservations on 2:15 A.M. United flight #350, which information was furnished New York. Error occurred in the reduction process of monitoring results. Every effort will be made to avoid this type error in the future.

All appropriate personnel have been personally instructed by me that they must take every possible precaution to insure that all information reported is absolute accurate.

They have also been instructed that if there is any question as to the accuracy of information full explanations must accompany the reported data and that every logical step must be taken to insure that nothing is reported that is not accurate.

Reference is made to Bureau "June" letter to your personal attention 3/9/64 which furnished certain observations relative to recent handling by your office of information being obtained through highly sensitive sources.

Another matter has come to the Bureau's attention relative to your office's handling of information from these highly sensitive sources which necessitates further evaluation of your office's administrative handling of captioned investigation.

By airtel 3/2/64 to the Bureau, copies to New York, your office submitted a letterhead memorandum (LHM) of same date under the title of "Communist Infiltration of Southern Christian Leadership Conference, IS - C." This was followed by another airtel to the Bureau, copies to New York, dated 3/2/64 which also enclosed an LHM of same date under the same Southern Christian Leadership Conference (SCLC) title. The latter airtel and LHM were submitted under cover of still another airtel dated 3/5/64, copies of which were also furnished to New York. The 3/5/64 airtel noted that it was serving as a cover for corrected copies of an airtel dated 3/2/64 and that previous copies of the original airtel and LHM should be destroyed. It also noted that your office had originally failed to designate copies for the New York and Bureau files on the SCLC but was making such designation by means of the revised airtel and LHM.

The Bureau received a fourth communication from your office, a radiogram dated 3/5/64, which instructed that

Bureau "hold dissemination of LHM forwarded to the Bureau and New York by airtel dated 3/2/64." The radiogram explained that a conversation originally described as between Martin Luther King, Jr., and Harry Wachtel was actually between King and Clarence Jones.

Your office's handling of a discovered error in an LHM, as evidenced by the above-described communications, was somewhat less than desirable on two main points. A close examination of the original LHM and the revised version revealed that these five-page LHM's are exactly alike except for two to three lines in the first paragraph of page 1. Good judgment would have dictated that the most expedient and efficient manner for handling the correction necessary would have been to prepare a revised page 1 rather than a completely new LHM five pages in length. It would also have dictated the desirability for submitting only a very brief cover communication relative to the desired change and thus saved the preparation of almost all of your second airtel dated 3/2/64. Further, there was no necessity for submitting the airtel of 3/5/64 which served only as a cover for a revised 3/2/64 airtel. The fact that you desired to submit extra copies of the LHM for additional dissemination to Bureau and New York files on the SCLC could have been handled either by routing slip or merely left to the discretion of the Bureau and New York for their own reproduction and dissemination procedures. From the foregoing it is obvious that considerable needless clerical, stenographic, Agent and supervisory efforts were expended.

The second undesirable aspect of your office's handling of this matter involves that of timing. The Bureau does not definitely know when your office first discovered the error made in the original LHM. It may have been as early as 3/2/64, which is the date of the revised LHM, or as late as 3/5/64 when your office submitted the radiogram instructing that dissemination be held up. Whenever it was

Letter to Atlanta

that the error was found, your office should have taken the most expeditious means available (telephone) to advise the Bureau to hold up dissemination. You would thus be taking all possible action to prevent an embarrassing situation arising wherein the Bureau might be required to write corrective correspondence to outside agencies. For your information, it was only by a stroke of good fortune that the Bureau was able to prevent dissemination of the incorrect LHM after receipt of the radiogram.

The Bureau is also in receipt of your "June" letter of 3/5/64 forwarding a tape recording of the conversation between King and Jones referred to in the LHM's discussed above. Nowhere in this 3/5/64 communication is it stated as to why the recording is being furnished the Bureau, it being noted that your office does not normally submit to the Bureau recordings in this case. The Bureau can only assume that possibly you submitted the recording because of the error which had occurred in the original LHM. If that be the case, such reason should have been indicated in your letter of 3/5/64. If it was some other reason, same should have been stated.

You are instructed to advise the Bureau by return communication as to the reason why the recording was furnished to the Bureau and the disposition you desire made of the recording.

Relative to your request as to destruction of the original airtel and LHM, be advised that it is contrary to Bureau record-keeping procedures to destroy originals of any communications even though they contain errors. The usual procedure is to retain the originals with appropriate notations as to the errors.

Instant communication as well as the referred to Bureau letter of 3/9/64 would indicate the necessity for some reassessment relative to your office's handling of matters in captioned case, particularly those relating to information being obtained from highly sensitive sources.

COMMUNIST INFLUENCE IN RACIAL MATTERS

Correspondence in this and related cases is extremely heavy. You should examine closely the matter of personnel allotment to captioned and related cases and take such steps as are necessary to insure that sufficient personnel are assigned to this case to, in turn, insure it is receiving the meticulous attention warranted. The conference had at the Seat of Government with personnel of your office in December, 1963, highlighted the importance which the Bureau has attached to captioned case. There has been no change. This is still one of the most important cases being handled by the Bureau in the security field. It is absolutely imperative that there be no letdown in the necessary time and attention being devoted to this matter.

The Bureau would be receptive to obtaining any observations or recommendations your office may have relative to the matters discussed herein.

Reference is made to telephone calls between the Bureau and your office 3/2/64 concerning the clarity of information obtained on 2/28/64 through highly sensitive sources AT 1380-S* and AT 1381-S*. It was then learned that tapes had not been made of the conversations involved. A specific matter in question pertained to the full identity of a Mr. Carter of the State Department. During one conversation his first name was reported by the monitoring employee as "Geoffrey" (phonetic). During another conversation his first name was reported by the monitoring employee as "Godfrey" (phonetic). There were only logs and the memory of the monitoring employees to call upon in an effort to clarify the matter.

MAILED 11 1964
The Bureau has noted some recent instances where information obtained from these sensitive sources, when received at the Bureau, was in error. It, of course, is not clearly known as to whether the error occurred in the monitoring process or in the reduction of the information to communications received at the Bureau. For example, your radiogram of 2/26/64 reported that Martin Luther King, Jr., and his aide, Bernard Lee, have reservations on United Air Lines Flight 301 leaving Atlanta at 2 a.m., 3/29 next. The information was telephonically furnished the New York Office. A check with United Air Lines revealed that it had no Flight Number 301 but that its Flight Number 300 left Atlanta 2:45 a.m., destination Kennedy International Airport 4:35 a.m. When a telephonic check was made by the Bureau with New York, it was revealed that your office had furnished the information to New York correctly. Another matter concerned information obtained through these sensitive sources to the effect that the C.P. (phonetic) was offering Wyatt Walker a position. After considerable research and inquiry into this matter, your letter of 3/3/64 advised that sometimes Bayard (referring

The Bureau recognizes that the obtaining of information from these sensitive sources requires meticulous care and attention, particularly in view of the manner of expression of most of the individuals concerned. It is therefore suggested that if your office is not presently preparing tapes relative to these sources, you immediately undertake to have tapes prepared concerning the more important conversations monitored. This, of course, will require close attention by the monitoring employees, who will need to be extremely alert to recognize the importance of matters discussed and thus be able to activate the necessary recordings. In the case referred to above concerning Mr. Carter, there would have been an immediate alert to the importance of the matter by nature of the fact that Carter identified himself as with The State Department.

The foregoing is submitted for your consideration and action. Advise the Bureau of any observations you may have and the action you propose to take in pursuance of the above.

NITRO QUESTION
COMMUNIST INFLUENCE IN RACIAL MATTERS
100-3-116

Bureau "held dissemination of LHM forwarded to the Bureau
that a conversation originally described as between Martin Luther
King, Jr., and Henry Wachtel was actually between King and
Glenn Jones."

Your office's handling of a discovered error in an
LHM, as evidenced by the above-described communications, was
somewhat less than desirable on two main points. A close
examination of the original LHM and the revised version
revealed that these five-page LHM's are exactly alike except
for two to three lines in the first paragraph of page 1.
Good judgment would have dictated that the most expedient
and efficient manner for handling the correction necessary
would have been to prepare a revised page 1 rather than a
completely new LHM five pages in length. It would also have
dictated the desirability for submitting only a very brief
cover communication relative to the desired change and thus
saved the preparation of almost all of your second airtel
dated 3/2/68. Furthermore, there was no necessity for submitting
the airtel of 3/5/68 which served only as a cover for a
revised 3/2/68 airtel. The fact that you decided to submit
extra copies of the LHM for distribution to Washington to
Bureau and New York is in on the fact that the LHM has been limited
either by routing slip or by the fact that the distribution of
the LHM is now being handled by the Bureau and directed
to Washington, New York, Los Angeles, San Francisco, and
San Diego. It is also noted that the LHM, as prepared, does
not appear to be a cover letter.

Handling of this matter involved that of timing. The Bureau
does not definitely know when your office first discovered
the error in the LHM. It is noted that the revised LHM, or as
late as 3/5/68, when your office submitted the airtel
instructing that dissemination be held up. However, it was

that the error was found, your office should have taken the most expeditious means available (telephone) to advise the Bureau to hold up dissemination. It would be to taking all possible action to prevent an embarrassing situation arising wherein the Bureau might be required to write corrective correspondence to outside agencies. For your information, it was only by a stroke of good fortune that the Bureau was able to prevent dissemination of the incorrect LHM after receipt of the radiogram.

The Bureau is also in receipt of your "Memo" letter of 3/5/64 forwarding a tape recording of the conversation between [redacted] and [redacted] referred to in the LHM's discussed above. Somewhere in this 3/5/64 communication is it stated as to why the recording is being furnished the Bureau, it being noted that your office does not usually submit to the Bureau recordings in this case. The Bureau can only assume that possibly you submitted the recording because of the error which had occurred in the original LHM. If that be the case, such reason should have been indicated in your letter of 3/5/64. If it was some other reason, same should have been stated.

You are instructed to advise the Bureau by return communication as to the reason for the recording was furnished to the Bureau and the dissemination you do see made of the recording.

Relative to your request for destruction of the original airtel and [redacted] is contrary to Bureau record-keeping procedure concerning retention of any communication. It is the usual procedure to retain the original with appropriate notations as to the errors.

In light of attention [redacted] referred to Bureau letter 1/10/64, and [redacted] necessity for some reconsideration relative to your office's handling of matters in [redacted] cases, particularly [redacted] to information being obtained from highly sensitive sources.

February 28, 1964

Re your telephone call today.

The tapes and transcriptions have been sent by separate communication under the caption "CP USA, Negro Question, Communist Influence in Racial Matters," dated 2/27/64. These tapes were extremely difficult to "read" in view of the constant playing of the TV and/or radio, coupled with the intermittent landing of airplanes.

Concerning Dolores Evans, she continues to reside in the same residence as her husband, Dr. Theodore Evans, 750 West Figueroa Drive, Altadena. There has been no change in court action and they are both scheduled to appear in court on March 4, 1964, concerning the granting of the interlocutory decree of divorce.

Concerning Dorothy E. Boswell, whose full name is Dorothy H. Boswell, she first came to the attention of this office on 2/18/64 when King and Walker were departing for Honolulu from Los Angeles with the then unidentified third man who was subsequently identified as Logan Kears. It was observed that a woman driving a Chevrolet Nova, California license GMX 770, had accompanied Kears to the airport on 2/18/64. This car was registered to Dorothy Boswell, 8111 South Harvard Boulevard, Los Angeles, Calif.

Boswell is divorced from Manisee Boswell, Jr., place unknown. She came to Los Angeles from Cleveland, Ohio about 1959, having been employed by the U. S. Navy at 1901 East 13th Street, Cleveland from September, 1950, to June, 1959. In addition she had part-time employment at the St. James AME Church there. She currently is employed by the Air Force Systems Command, Space Systems Division, 5740 Arbor Vitae, Inglewood, California, having been so employed since September 1959. She is a Negro.

REC-102

Following return of King, et al to Los Angeles, after checking in the Ambassador Hotel on 2/20/64, Kears during the early morning hours of 2/21/64 called telephone number 758-3839 and invited this female to come to the hotel. Telephone number 758-3839 is listed to Boswell.

After departure from the Ambassador Hotel, King and Kears and the two women arrived at the Hyatt House about 8:30 PM, 2/21/64. Kears was driving above-mentioned Chevrolet Nova,

GMX 770, and the two women disembarked from the car at the street and walked up a long driveway to the hotel office. Five minutes later as the women were departing the hotel office, Boswell's car pulled in the driveway of the hotel, ~~after~~ which time King and Kearse were observed registering.

It is not known how long Boswell stayed at the Hyatt House; however, her car was observed at her residence about 9:00 AM on the morning of 2/22/64. Later on the morning of 2/22/64 she was observed to return to the Hyatt House and was observed in the company of Walker and Sheffey.

She was not observed after 2/22/64. It is noted that Kearse left Los Angeles for Baltimore on the night of 2/22/64.

Concerning the registrations at the Ambassador, the rooms were taken under the names of Martin Luther King and Wyatt T. Walker. *Calif Calif Ga*

The hotel register at the Hyatt House reflects the following: Mr. and Mrs. W. T. Walker, 334 Auburn Avenue, Atlanta, Georgia, were assigned Room 224 on 2/21/64 and were checked out at 9:22 AM, 2/25/64. Martin Luther King, Jr., 334 Auburn Avenue, Atlanta, Georgia, and Dr. Logan Kearse, *Calif* 1627 Bolton Street, Baltimore, Maryland, were assigned Room 152. Records indicate that both of these individuals were checked out as of 9:25 AM, 2/25/64.

Mrs. Dolores Evans, 750 West Figueroa Drive, Altadena, was assigned Room 290 on 2/21/64 and according to records, she checked out from this room at 2:12 PM, 2/24/64. No record of any registration was located for the name of Boswell or Sheffey at the Hyatt House.

It cannot be determined if there was any change in companions on the part of King. It is felt that the girl with him on the night and in the early morning hours of 2/23-24/64 was, in fact, Evans. The only doubt about this conclusion is that the female companion in Room 152 stated she had to be at work at 8:00 AM and, according to available information, Evans is not employed. Evans was subsequently observed in the company of King on the afternoon of 2/24/64.

① Security foreign intelligence operation

Martin Luther King, Jr., the well-known Southern Negro leader who is President of the Southern Christian Leadership Conference (SCLC), is being closely advised by Stanley Levison, a New York attorney and secret member of the Communist Party (CP). He has made the statement that King is a "wholehearted Marxist who has studied it (Marxism), believes in it, agrees with it, but because of his being a minister of religion does not dare to espouse it publicly." Levison has appeared before the Senate Internal Security Subcommittee and refused to answer questions concerning his membership in the CP. Levison continues to act as advisor to King. In June of 1962, he recommended that King hire Hunter Pitts O'Dell as an administrative assistant. King, acting upon this advice, hired O'Dell in this capacity but on November 2, 1962, as a result of a newspaper article identifying O'Dell as a communist, King announced that O'Dell had resigned from this position and his resignation had been accepted. However, as late as August 30, 1963, O'Dell has been observed by Agents of the FBI entering and leaving the SCLC office in New York City. O'Dell, under the pseudonym Cornelius James, was elected to the National Committee of the CP in 1959.

Information developed during August, 1963, indicates that King, who is married, maintains intimate relationships with at least three women, one in Atlanta, one in Mt. Vernon, New York, and one in Washington, D. C.

OBSERVATIONS:

King's duplicity is amply illustrated in his public announcements concerning O'Dell's lack of connections with the SCLC although, as mentioned above, O'Dell was observed entering and leaving the New York office of the SCLC as late as August 30, 1963. King's extramarital affairs while posing as a minister of the gospel leave him highly susceptible to coercion and possible blackmail and, most important, in view of his continued close association and willingness to accept advice and submit to the influence of such communists as Levison and O'Dell, we should have as complete coverage as possible of King's activities. A large part of the information set out above as well as a great deal of additional information of interest has been developed through technical coverage of close

associates of King, such as Stanley Levison and Clarence B. Jones, a former member of the Labor Youth League who is head of the Gandhi Society for Human Rights of which King is honorary chairman, as well as the offices of the above society. It is believed that additional data of extreme interest in this matter could be obtained through technical coverage of King's residence in Atlanta and the Atlanta and New York offices of the SCLC.

RECOMMENDATION:

There is attached a proposed airtel instructing Atlanta to conduct a survey as to the feasibility of installing a technical surveillance on King's residence, as well as the offices of the SCLC. Copies of this airtel are also being forwarded to the New York Office with instructions to conduct a similar survey on the New York office of the SCLC.
